**Royal Coast Condominium Association

**ROYAL COAST CONDOMINIUM
ASSOCIATION
RULES, REGULATIONS AND POLICIES**

The Royal Coast Condominium Association (RCCA) is a residential condominium consisting of 203 units in a beautiful, excellently maintained and managed building. Your Board of Directors, Manager and staff are dedicated to providing and ensuring the conditions that add to your comfort, convenience and safety.

Based on the above premise of ensuring your comfort, convenience and safety there are certain rules, regulations and policies that must be honored by all residents of the RCCA. As in the case of any well-organized family unit, it is necessary to have certain understandings and rules on how to live together harmoniously. Compliance with the rules, regulations and policies of the RCCA will offer a mutually beneficial, comfortable and enjoyable quality of life. It is expected that each owner/lessee will see to it that his or her family members and guests are made aware of these rules and that they are followed and enforced.

Please read this guide and become familiar with all the rules and policies that if followed consistently by all residents will make the Royal Coast Condominium a great place in which to live or to visit. The policies address many informational and life safety topics that all residents living at or visiting the RCCA need to familiarize themselves with.

If you need to visit the office, you may stop by between the hours of 8:00AM and 4:00PM Monday through Friday (except legal holidays). Please note that the office is closed for lunch between 12:00 noon and 12:30PM. If you have questions and wish to contact the RCCA Manager during working hours, please call:

Phone: (954) 781-9791

Fax: (954) 781-0095

Email: royalcoastcondos@comcast.net

Outside of working hours please contact the security office at (954) 781-9790 regarding rule violations, emergencies, or security concerns. The security guard will take a report and submit it to the RCCA manager the next day unless it is an emergency at which time the manager will be immediately contacted.

The Board of Directors thanks you in advance for your cooperation with this guide and your understanding that as a community we must work together for the betterment of all concerned.

Please understand that these rules, regulations and policies will be binding upon all unit owners and lessees.

How to Use this Reference Guide

The guide is divided into five sections to make it easier for you to find what you are looking for.

Section I is an alphabetical listing of the most common **Rules and Regulations** that all of us at Royal Coast are required to observe. We live in a community setting and we must realize and appreciate the fact that our actions can have an effect on our neighbors. We must demonstrate courtesy and respect at all times, consequently, to ensure we do not negatively impact the rights and entitlements of our fellow unit owners, or their guests or lessees who are also bound by these rules.

Section II contains **Safety and Security** topics that detail emergency procedures to be followed in the event of hurricane or fire and information about Security at Royal Coast.

Section III, How Do I...? lists all of the procedures for explaining how to do everything from reserving the social room to getting a delivery. Refer to these listings as necessary depending upon your need.

Section IV, Pool and Deck Area, explains the rules of etiquette and common sense that we all need to observe in order to maintain a safe, enjoyable time at our pool, which many consider to be the heart of the Royal Coast, and our other amenities.

Section V explains our **Compliance Process** to ensure uniform enforcement of the rules. Naturally, rules are only effective if they are followed and become ineffective if violated with impunity. It is understood, moreover, that a simple reminder to a resident, guest, or lessee will achieve compliance in most instances, but in extreme cases of continued violation to the detriment of others, certain measures will be taken up to and including fines and/or legal action.

Hurricane Plans and Procedures

The Royal Coast Condominium Association is located on a barrier island in a high risk hurricane area. In the event of a hurricane warning by the authorities that a hurricane is likely to hit our coastal area or is heading in our direction, no time should be lost in making immediate preparations to carry out your pre-arranged plans to evacuate.

AUTHORITY

The Governor, acting under the power granted to him by Florida Statutes 252-36 and 252-38, has the authority to declare that a “State of Emergency” exists, or is an imminent threat. He may direct and compel the evacuation of all or part of the population from a stricken or

threatened area within the state, if deemed necessary, for preservation of life. To intentionally disregard the Governor's order subjects violators to arrest.

HURRICANE PHASES

- **PHASE 1 – HURRICANE WATCH**

The term HURRICANE WATCH indicates the development of a hurricane which is being plotted as to its movement and severity. The following advance preparations are recommended:

- a. Prepare a small piece of luggage in anticipation of a mandatory evacuation. In it place a change or two of clothing, valuables as well as important papers such as your will, passport, etc.
- b. Using your credit card, reserve a hotel room further inland, out of the evacuation zone, away from the ocean; or make plans to stay with friends or relatives inland.
- c. Keep a battery operated radio with extra batteries on hand, in the event of a power failure.
- d. Have a flash light with extra batteries on hand.
- e. Have a supply of canned food, canned milk, meats and vegetables, etc. and a hand held can opener to use if necessary because of a power failure.
- f. Have a well stocked first aid kit and enough medication to last several days to cover you for the period of evacuation. For those who use oxygen make arrangements to have an adequate supply.
- g. Fill your automobile gas tank.
- h. Have pillows and blankets in the event you decide to evacuate to a public shelter.
- i. Obtain small bill cash before hand; remember that the ATM machines may not be operating.

- **PHASE 2 – HURRICANE WARNING**

A HURRICANE WARNING indicates a strong possibility that a severe hurricane may hit our coastal area within 12 to 36 hours. When the "Warning" is issued all occupants of the RCCA should prepare for the potential mandatory evacuation order which could follow for the barrier island. Under this mandatory order before leaving the RCCA please do the following:

- a. While water is still turned on, draw drinking water for use when you return to the RCCA.
- b. Fill buckets and the bathtub with water for flushing of toilets. Don't flush the toilets if there is no electric power in the building.
- c. Shut off all water to your apartment.

- d. Turn your refrigerator and freezer to a colder setting. Place ice cubes in a small sealed bag in the freezer. The shape of the ice cubes will alert you to the fact that the refrigerator defrosted. In that event dispose of all food when you return.
 - e. Turn off all non-essential electric breakers.
 - f. Wrap any other valuables that you are leaving behind in plastic bags and secure them in a safe location, such as the interior of a closet or bathroom, even your refrigerator is an option.
 - g. On the kitchen counter, leave a note for anyone who might be looking for you as to where you can be located as well as your cellular telephone number, if you have one. Be sure your cell phone is fully charged.
 - h. Leave your car keys on the kitchen counter in the event your car was left behind and must be removed. Be sure the office has a key to your car in the event of emergency.
 - i. Securely close and lock all shutters, doors and windows.
 - j. Remove all items from the balcony if you do not have wraparound shutters.
- PHASE 3.A – RECOMMENDED EVACUATION

The term RECOMMENDED/VOLUNTARY EVACUATION as used by the authorities means that it is NOT mandatory to evacuate. The term is used when winds are in the area of a minimal hurricane or approaching the speed of about 74 MPH or when no ocean surge is expected. In the event of a recommended/voluntary evacuation the RCCA will not implement the procedures required by a mandatory evacuation.

- PHASE 3. B – MANDATORY EVACUATION

When the MANDATORY EVACUATION ORDER is issued everybody will be in a rush to evacuate. Evacuation routes will probably be jammed; therefore, it is imperative that you evacuate as soon as possible in conformance with the public announcement as issued by the local authorities. If you wait too long the intra-coastal bridges may be barricaded.

A MANDATORY EVACUATION means just that; it is an order or command. The Florida governor is empowered to declare a state of emergency for the protection of life and property. That power is further delegated to the Office of Emergency Management of Broward County. When a mandatory evacuation of the barrier island is ordered, residents as well as employees must comply.

At the RCCA the following procedures will take place under a mandatory evacuation:

- a. One elevator will be working.
- b. The emergency generator will NOT be shut down.

- c. Emergency lighting will be activated with generator use in the event there is an FP&L power failure.
- d. There will be no air conditioning throughout the building or the units if there is an FP&L power failure.
- e. The RCCA fire alarm system may fail if there is an FP&L power failure. Under these circumstances, the fire department will have cause to declare the RCCA building unfit for habitation.
- f. There will be no police, fire department or ambulance services as all three agencies will evacuate the barrier island. If there are individuals left behind experiencing emergency situations, these agencies will not respond.
- g. The RCCA building may be closed down and locked.
- h. There will be no personnel on duty – management, maintenance or security.
- i. The RCCA will not be held responsible for any person or persons left in the RCCA building. All persons must evacuate.
- j. Once the hurricane/storm passes, do not rush back to the RCCA since the building may have no electricity or water. Please call the security office for a taped message as to when it is recommended that you return.

Security

- a) The RCCA security guards are on duty 24 hours a day, 7 days a week, and 365 days a year except during mandatory evacuation, or other states of emergency. To enable the security guards to carry out their duties effectively, residents and guests are not to “visit” with the guards on duty.
- b) Do not enter the guard room. Signal to the guard from below the platform and wait for the guard to come to you.
- c) No unit owner/lessee or resident, with the exception of the manager is to direct, supervise or assert any control over any security personnel.
- d) All owners/lessees and guests must register with security when arriving or departing the RCCA for extended periods greater than a weekend. This is especially important for unit owners who do not live at the RCCA year round.
- e) For your security, all doors and gates leading into the building or common areas must be kept closed and locked at all times. Do not leave any door or gate unlocked or open, it is against association policy and compromises our security system.
- f) Our security personnel are not to be criticized for challenging any unknown person.
- g) Guards are not permitted to accept or hold unit owner’s keys.
- h) The security guards will receive all incoming parcels from carriers. The residents are required to pick up the parcels from security within 24 hours.
- i) The management or the Board of Directors are not responsible for any unit owner/lessee packages.
- j) If items are not picked up within 24 hours, they may be returned.
- k) Security will not accept any certified or registered mail.

- l) Owners/lessees, or authorized occupants of units should not request that security guards unnecessarily leave their post. In case of emergencies, residents should call 911. Residents should immediately report anything of a suspicious nature to the security office.
- m) Soliciting is not permitted on the premises and should be stopped and reported to security at once.
- n) On the RCCA pool deck by the water fountain there is an emergency phone dedicated to 911 emergencies. Press the button once and you will be automatically connected to 911 emergency personnel.
- o) Please also note that there are five emergency call boxes that are connected directly with the security office. These call boxes are located throughout the RCCA.
 - i. The first call box is located in the basement by the main elevators
 - ii. The second call box is located in the garage by the west door to the main elevators
 - iii. The third is located in the garage by the north service entrance doors
 - iv. The fourth is located by the south door entering the main floor atrium
 - v. The fifth is located by the north service doors by the outside parking lot
- p) In case of an emergency dial 911 directly via your own phone.
- q) Do not open your unit doors for strangers. Contact security immediately if you are suspicious.
- r) Do not hold outside doors open for people you do not know. Suggest to the person trying to enter the building to check in with security first.

Unit Keys

- a) In case of any emergency originating in or threatening any private unit, or person, the Board of Directors of the association, or any other person authorized by it, has the right to enter the unit for the purpose of remedying or abating the cause of an emergency.
- b) The same right of entry exists for the purpose of performing any maintenance, alteration or repair to any portion of the common property, except that in this instance, such entry will be made only at reasonable times and with reasonable advance notice.
- c) In an emergency, management will enter the unit to correct the emergency. There is no exception to this rule.
- d) The RCCA office holds a master key to all units. In the event that the unit lock has been changed without RCCA approval, then should the entrance door to the unit have to be removed or torn down because the office does not have the unit's key, it will be the full responsibility of the unit owner/lessee for all expenses and damages incurred.
- e) The Board of Directors and/or management will not release keys for the purpose of providing access to realtors, maids, contractors, guests, visitors, etc. as this is not considered an emergency. Owners/lessees are to provide a key directly to the person they wish to have access to their unit. The manager or the Board of Directors do not have access to the private unit key box held in the RCCA main office after working hours.

Section III—How Do I ...?

Section V—Compliance

The Compliance Process

All of the rules need to be followed.

On rare occasions, specific steps beyond a gentle reminder need to be taken by management to achieve compliance with a rule or rules that certain individuals repeatedly fail to observe. This process is specifically detailed in chapter 718.303 of the Florida Statutes. <https://www.flsenate.gov/Laws/Statutes/2018/0718.303>

Pursuant to Florida 718 statute, the RCCA has the option to take the following steps to achieve compliance with our rules:

- **Step 1**—A form letter will be given to the offending owner/lessee (with a copy to the owner) detailing the specific infraction, stating the exact rule violated and the page number on which this rule can be found in the RCCA Rules, Regulations and Policies book. A sample of this form follows.
- **Step 2**—Repeat violation of the same infraction will set in motion the fining provision of the statute. The offending party will be officially notified in person or by certified mail of a repeat infraction. A sample of this form also follows. The party may now be assessed a fine, pending a hearing by a RCCA Rules Fining Committee consisting of three non-Board members. The offending party will be given fourteen (14) days notice of such hearing at which time the facts and documentation of the offense will be presented, including a copy of the Step 1 letter in which the owner/lessee was advised that any repeat of said violation could result in financial penalty. Offending party may present any explanations or mitigating circumstances at this time.

- **Step 3**—The RCCA Rules Compliance Committee may propose a decision and present their recommendations to the Board for final resolution. The case will either be approved for a fine for the length of time it takes the owner/lessee to correct the violation, or it will be dismissed.
- **Step 4**—If a fine has been assessed and has not been paid the Association reserves the right to take legal action to recover any outstanding amounts.
