Report # 422

STRUCTURAL INTEGRITY RESERVE STUDY / RESERVE STUDY

**PREPARED BY
INDEPENDENT WORKS, LLC.
DUNEDIN, FLORIDA 34698**

FOR PERIOD: January 1, 2025– December 31, 2025

December 3, 2024

Symphony North Condominium Association, Inc.
Attn: Ms. Angela Panzardi, Property Manager
C/o Castle Group
600 West Las Olas Boulevard
Fort Lauderdale, FL 33312

Dear Ms. Panzardi,

On August 1st, 2024, we completed an on-site inspection of Symphony North Condominium Association, Inc.'s structural integrity reserve study and standard reserve study items. We also utilized information provided by the association representatives. At a minimum, a structural integrity reserve study must identify the common areas being inspected, state the estimated remaining useful life and estimated replacement cost or deferred maintenance expense of the common areas being visually inspected, and provide a recommended annual reserve amount that achieves the estimated replacement cost or deferred maintenance expense of each common area being visually inspected by the end of the remaining useful life of each common area component.

Respectfully submitted,
Independent Works, LLC.

Margery Schultz, RS #319
Reserve Specialist, Community Associations Institute

FLORIDA STATUTORY REQUIREMENTS

A structural integrity reserve study is based on a visual inspection of the condominium property. A structural integrity reserve study may be performed by any person qualified to perform such study. However, the visual inspection portion of the structural integrity reserve study must be performed or verified by an engineer licensed under chapter 471, an architect licensed under chapter 481, **or a person who is certified as a reserve specialist** or professional reserve analyst by the Community Associations Institute or the Association of Professional Reserve Analysts.

A residential condominium association must have a structural integrity reserve study completed at least every 10 years after the condominium's creation for each building on the condominium property that is three stories or higher in height as determined by the Florida Building Code which includes, at a minimum, a study of the following items as related to the structural integrity and safety of the building:

- a. Roof
- b. Structural Systems
- c. Fireproofing & Fire Protection Systems
- e. Plumbing Systems
- f. Electrical Systems
- g. Exterior Painting & Waterproofing
- h. Common Area Windows & Doors

i. Any other item that has a deferred maintenance expense or replacement cost that exceeds \$10,000 and the failure to replace or maintain such item negatively affects the items listed in sub-subparagraphs a.-h. sub-subparagraphs a.-i., as determined by the licensed engineer or architect performing the visual inspection portion of the structural integrity reserve study.

REPORT FINDINGS:

Total 2025 Recommended contribution: NON-SIRS \$207,338 + SIRS \$136,309 = \$343,647

NON-SIRS – POOLED FUNDING ANALYSIS

Our recommended annual reserve funding contribution amount (2025): \$ 207,338

SIRS ANALYSIS RESULTS – POOLED FUNDING ANALYSIS

Our recommended annual reserve funding contribution amount (2025): \$ 136,309

TOTAL FUNDING \$ 343,647

PROJECTED COMPONENT CATEGORIES AND PARAMETERS

PROPERTY AND PROJECT DESCRIPTION

The Symphony North Condominium Association, Inc., a residential development located in Fort Lauderdale, Florida. The property was constructed in 2005. The north association has a 22-story tower that contains a total of 187 units.

The property also includes a South association and a master association. The Symphony South Association is a 22-story tower that contains a total of 151 residential units that is part of a 338 total unit association.

The community is comprised of a master association that includes a parking garage, and amenities. The master association is responsible for the master structures, i.e. guard house, pool building, gazebo and lobby entry roofs and exterior building components, master building mechanical, fire, electric, plumbing and access systems, an office and amenity interior finishes, bathrooms, fitness equipment, furniture, elevator, lighting, flooring and various other miscellaneous interior components.

The master also included the pool & spa and related systems, pool deck, level 7 deck, site components including parking garage, pavement, boat dock/marina, fountains, outdoor furniture and other miscellaneous site improvements for the use of the community residents.

EXECUTIVE SUMMARY

PROPERTY DATA

Property Name: Symphony North Condominium Association, Inc.

Property Location: Fort Lauderdale, Florida

Property Type: Condominium Association

Report Run Date: December 4, 2024

Budget Year Begins: January 1, 2025

Budget Year Ends: December 31, 2025

PROJECTED COMPONENT CATEGORIES AND PARAMETERS

1. Building Exteriors
2. Common Area Interiors
3. Mechanical Systems

4. SIRS-Common Windows & Doors
5. SIRS-Electrical Systems
6. SIRS-Exterior Paint & Waterproofing
7. SIRS-Fire Alarm & Fireproofing
8. SIRS-Plumbing Systems
9. SIRS-Roofing
10. SIRS-Structural Systems

Total current cost of all reserve components in reserve analysis:	\$ 5,264,262
Estimated beginning reserve fund balance for reserve analysis:	\$ 1,380,504
Total number of components scheduled for replacement in the 2025 budget year:	2
Total cost of components scheduled for replacement in the 2025 budget year:	\$ 572,955

NON-SIRS –POOLED FUNDING RECOMMENDATION

Our recommended annual reserve funding contribution amount (2025): \$ 207,338

Railings/Handrails

Item Number	14	Measurement Basis	total
Type	Unit	Estimated Useful Life	50 Years
Category	Building Exteriors	Basis Cost	\$ 475,000.00
Tracking Method	Logistical		
	Fixed		

Code	Service Date	Replace Date	Rem Life	Adj Life	Quantity	Current Cost	Future Cost
001-000-0014	01/01/2005	01/01/2055	30:00	50:00	1	\$ 475,000.00	\$ 865,074.27
						475,000.00	865,074.27

Comments

At some point, the association should expect to incur costs for replacement of the railings/handrails at the unit balconies. Replacement is sometimes completed in conjunction with major concrete restoration. We have observed life cycles for railings replacement after less than 25 years, while some properties of 40+ years in age have yet to complete replacement.

This fund is designed to provide monies for as needed repairs to and eventual replacement over a 50 year life cycle. The current per linear foot cost estimate includes removal and disposal of the existing railings, typical minor concrete repairs, and installation of railings of similar height/quality.

Common Area Carpeting

Item Number	1	Measurement Basis	sq yds
Type	Unit	Estimated Useful Life	12 Years
Category	Common Area Interiors	Basis Cost	\$ 83.28
Tracking Method	Logistical Fixed		

Code	Service Date	Replace Date	Rem Life	Adj Life	Quantity	Current Cost	Future Cost
001-000-0001	01/01/2018	01/01/2030	5:00	12:00	2,568	\$ 213,863.04	\$ 236,335.54
						213,863.04	236,335.54

Comments

Life cycles of 5-6 years, to 15+ years, have been observed for replacement of carpeting in primary common area interiors (hallways, social rooms, exercise rooms, administrative offices, etc.). The useful life depends on the quality of carpeting, level of ongoing maintenance and association cosmetic tastes.

A 12 life cycle estimate reflects a 2030 replacement date for the carpeting in the common area rooms, based on the previously reported 2018 installation date. The current cost estimate includes removal and disposal of the existing carpeting and installation of like quality. The floor area estimate includes a typical market waste allowance.

Elevator Cab Interiors

Item Number	3	Measurement Basis	cabs
Type	Unit	Estimated Useful Life	25 Years
Category	Common Area Interiors	Basis Cost	\$ 21,250.00
Tracking Method	Logistical Fixed		

Code	Service Date	Replace Date	Rem Life	Adj Life	Quantity	Current Cost	Future Cost
001-000-0003	01/01/2005	01/01/2030	5:00	25:00	3	\$ 63,750.00	\$ 70,448.78
						63,750.00	70,448.78

Comments

Major cosmetic refurbishment of passenger elevator cabs (flooring, wall finishes, ceilings/lighting, etc.) has been observed on life cycles in the 15-30 year range in properties of similar overall quality, with the most typical falling on the higher end of the range. A 2030 expense date was scheduled for cosmetic renovation of the passenger elevator cabs, accordingly.

						6,450.00	10,011.29

Comments

This fund is designed to provide monies for replacement of the marble flooring on the second floor common areas. Useful lives for tile flooring has a wide range in observed useful lives, from as low as 10 years to 30+ years; replacement is typically completed due to an association's desire for a more modern cosmetic appeal, rather than due to physical failure/wear out of the flooring itself. This fund is designed to provide monies for as needed repairs to and eventual replacement over a 24 year life cycle. The total area is a rounded estimate.

						185,000.00	212,775.86

Comments

This report assumes that as needed interior painting of the secondary common area interiors such as service hallways, mechanical rooms, etc. will continue to be completed in house, funded through the association's annual operating budget.

Assuming routine in house touch ups/repairs, interior painting of primary common areas (hallways, social rooms, exercise rooms, administrative offices, etc.) should be expected on a life cycle in the low to mid-10 year range.

The date of the most recent interior wall/door painting project was 2018. This expense was forecast in 2032.

Tracking Method	Logistical		
	Fixed		

Code	Service Date	Replace Date	Rem Life	Adj Life	Quantity	Current Cost	Future Cost
001-000-0004	01/01/2005	01/01/2035	10:00	30:00	3	\$ 736,500.00	\$ 899,413.38
						736,500.00	899,413.38

Comments

Modernization of traction/electric elevator mechanical and electrical components, including (but not necessarily limited to), controllers, door hardware, etc. has been observed on life cycles in the 25-30 year range in properties of similar quality, assuming a typical maintenance program. The useful life is often determined by an association's dissatisfaction with the elevators' speed, smoothness of ride, and noise.

A determination of the specific costs to the association, and whether or not this upgrade makes concurrent total elevator equipment modernization economically feasible is beyond the scope of this report. As such, we recommend that an elevator consultant(s) assess the existing equipment to determine more specific cost and remaining useful life data. We reserve the right to modify this report upon receipt of such an assessment(s).

						711,900.00	869,371.88

Comments

This reserve line item is designed to provide monies for as needed repairs to (including, but not necessarily limited to, fill replacements, gear box upgrades, framing/stands/piping upgrades, etc.) and eventual replacement over 28 year life cycles. The current cost estimate includes consulting/engineering fees, removal and disposal of the existing tower, and installation of a similar size/quality tower.

The market reflects a probable life cycle in the mid-20 year range for the roof mounted cooling towers, which were reportedly installed in 2005.

						60,837.00	100,261.52

Comments

Major trash chute restoration/replacement should be expected on a 30-45+ year basis, which assumes typical and routine maintenance. This fund is designed to provide monies for as needed repairs to and eventual major restoration/replacement of the trash chute over a 45 year life cycle.

The association currently replaces individual trash chute doors an incidental, as needed basis, and will likely not complete total inventory replacement at any one given time as a result. These as needed repairs/replacements are funded through the annual operating budget, as a function of routine maintenance; therefore, no reserves were included for trash chute doors.

Code	Service Date	Replace Date	Rem Life	Adj Life	Quantity	Current Cost	Future Cost
001-000-0016	01/01/2021	01/01/2041	16:00	20:00	1	\$ 36,500.00	\$ 50,251.78
						36,500.00	50,251.78

Comments

For the association's consideration and based on the new structural integrity reserve study requirements, we have included a reserve line item for the common area tower exterior doors/frames and windows. The majority of the doors were replaced in 2021.

Assuming installation with non-corrosive doors/frames, life cycles of 20-40 years have been observed for total inventory replacement. This fund is designed to provide monies for as needed repairs to and eventual total inventory replacement over a 40 year life cycle, accordingly. The total inventory size is a rounded estimate, and includes stairways access doors, roof doors, mechanical rooms doors, etc.

SIRS-Concrete Restoration

Item Number	34	Measurement Basis	total
Type	Common Area	Estimated Useful Life	10 Years
Category	SIRS-Structural Systems	Basis Cost	\$ 185,000.00
Tracking Method	Logistical Fixed		

Code	Service Date	Replace Date	Rem Life	Adj Life	Quantity	Current Cost	Future Cost
910-000-0034	01/01/2023	01/01/2033	8:00	10:00	1	\$ 185,000.00	\$ 217,070.60
						185,000.00	217,070.60

Comments

Concrete restoration was reportedly completed in 2023. This fund is designed to provide monies for removal of the existing deteriorated areas, restoration/replacement of the underlying structural systems, some measure of incidental concrete restoration and drainage upgrades, and installation of new concrete and stucco over a 10 year life cycle. The total area is a rounded estimate.

Without proper waterproofing, moisture intrusion can occur into the underlying concrete systems, which can cause premature deterioration of those systems and the need for costly concrete restoration. It has been our experience that major deck restoration is typically necessary on a 10-35 year schedule.

Costs and time frames can vary on a number of physical conditions; we recommend that prior to reserve funding decisions are made, a structural/waterproofing consultant(s) assess the existing systems to determine more specific cost and useful life parameters. We reserve the right to modify this report upon receipt of such an assessment.
