- Over 200 bearing Plantains; mostly Burro but some Johnson. Excellent for frying.

Sell about 6K yearly and growing with Mamoncillo trees growing exponentially yearly. Not exploited the coconuts, ciruelas or plantains yet, set for next year.

Have plenty of open land we use for a veggie garden that can be used to plant more productive trees/bananas/ciruelas/plantains if desired instead.

The fish pond has about 600 mature catfish and the same mature tilapia which bear fry about 2x yearly. Used for growing aquaponics/mostly watercress-also not commercialized but possible
