TERRACE	854 SF	79.34 M ²
TOTAL *	3,833 SF	356.10 M ²

*Floor Plan shown on 9th Floor, add or subtract 43 SF / 4 M² per level

Privé offers 160 graciously appointed residences in two dramatically angled, 16-story buildings. Featuring flow-through layouts with soaring, ten-foot ceilings, each Privé residence offers dramatic views of both the Atlantic Ocean and the Intracoastal Waterway through expansive floor-to-ceiling windows.

Private elevator foyers lead to spacious, well-proportioned spaces ranging from 3,585 to over 9,000 square feet. Exceptional fixtures and finishes include European kitchens and baths, plus elaborate summer kitchens for outdoor entertaining on deep, private terraces.

Unless otherwise noted, all dimensions of residences are measured to the exterior boundaries of the exterior walls and the centerline of interior dividing walls and in feet and inches from the dimensions that would be determined by using the description and definition of the "line" set forth in the Description set forth in the project. The interior dimensions are measured between the perimeter walls and include all interior structural components and other common elements. This method of measurement and basis is generally used in such materials and is provided to allow a prospective buyer to compare the Units with units in other projects that utilize the same method. However, are not part of the Unit. Measurements of interior floorplates are generally taken at the thickest points of each, given such as if the room were a perfect rectangle, without regard for any columns or variations. Accordingly, the interior area (square footage) of the actual room will typically be greater than the product obtained by multiplying the stated length and width. All measurements and dimensions are obtained based on preliminary plans which will vary with actual construction. All floorplans, specifications and other development plans are prepared and incorporated, and are subject to change and will not necessarily accurately reflect the final plans and specifications.
