
Rental applications are completed through DocuSign.

We do not conduct background or credit checks. Owners are responsible for completing those checks on their end.

To begin the application process, we will need:

- Copy of the rental lease agreement
- Tenant's photo ID
- Tenant's email address and contact information

Once we receive the lease and photo ID, we will send the application to the tenant through DocuSign for completion. Once the tenant completes their portion, the application is sent to the unit owner for review, signature, and submission.

There is also a \$1,500 security deposit required for all rentals.

This deposit is held to cover any potential damages to the common areas caused during the tenant's residency in the building.
